CIPHER AUTO LAB · DETAILING DOOR MAGNET WITH QR MENU · PRINT SPEC

24 × 12 in door magnet, QR menu

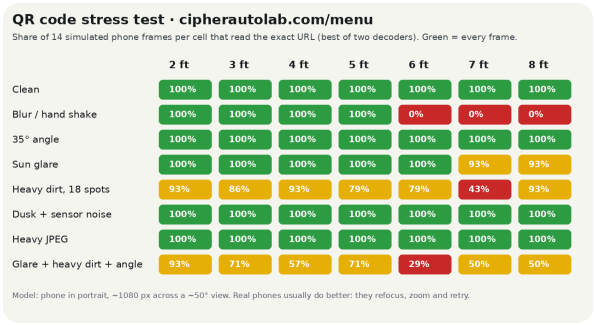

Mobile detailing magnet for an older 3-row SUV: phone number for people driving by, and a QR code to the price menu for people standing next to it. Two magnets, one per front door, same art on both.

24 × 12 in detailing magnet with QR menu, front door of an older 3-row SUV, to scale · silver

24 × 12 IN · RED = TRIM, BLUE = SAFE AREA

QR code stress test · cipherautolab.com/menu

Share of 14 simulated phone frames per cell that read the exact URL (best of two decoders). Green = every frame.

	2 ft	3 ft	4 ft	5 ft	6 ft	7 ft	8 ft
Clean	100%	100%	100%	100%	100%	100%	100%
Blur / hand shake	100%	100%	100%	100%	0%	0%	0%
35° angle	100%	100%	100%	100%	100%	100%	100%

Dusk + sensor noise	100%	100%	100%	100%	100%	100%	100%
Heavy JPEG	100%	100%	100%	100%	100%	100%	100%
Glare + heavy dirt + angle	93%	71%	57%	71%	29%	50%	50%

Model: phone in portrait, ~1080 px across a ~50° view. Real phones usually do better; they refocus, zoom and retry.

QR SCAN TEST ON SIMULATED PHONE FRAMES

MAGNET

Size	**24 × 12 in**, quantity 2 (driver and passenger door)
Material	30 mil vehicle magnet, outdoor UV-resistant ink
Finish	**Matte or satin laminate, not gloss.** Gloss throws sun glare across the QR code and the number
Corners	Rounded, 1 in radius, or your standard magnet die
Colour	Full colour on black. Lime is #A3E635 (closest PMS 375 C): please proof it

THE QR CODE

- Opens **https://cipherautolab.com/menu**. Level H error correction, 5.5 in square.
- Print it exactly as supplied: no resizing on its own, no recolouring, no logo in the middle, keep all the white around it.
- Please scan the printed proof with a phone before the full run.

FILES

- `Cipher-Detail-QR-Magnet-24x12in-bleed.pdf (24.25 × 12.25 in)`
- `Cipher-Detail-QR-Magnet-24x12in-bleed-300dpi.png`

Vector PDF, fonts embedded, 0.125 in bleed. All text and the QR sit at least 0.5 in inside the trim.
